

EDITORIAL COMMENTS.

Gov. Rye will be inaugurated at Nashville Jan. 15.

A good many of the naughty press boys who played hockey last week, are slipping back this week with their fingers in their mouths.

Izzet Pasha, former War Minister of Turkey, has been captured by the Russians. Following their usual custom the captors will doubtless change his name to Wazit Pasha.

The Germans have arrested Cardinal Mercier for advising Belgians not to give allegiance to the German administration of affairs in the proposed annexation of Belgium. His arrest has created a profound sensation throughout the Catholic world. Pope Benedict is expected to ask for speedy redress.

Alleging he had been put to much expense and damaged the loss of a car in the pursuit of his profession as the result of being compelled to return to a lower class, F. C. Morehead has filed suit for \$2,406 against the University of Louisville. It is said that he has lost a year in suit of his profession.

At a Christmas entertainment at Fulton, Eldridge Hastings fired what was supposed to be a 32 blank cartridge at Miss Gertrude Binkley, a pretty young school teacher. The cartridge was loaded and Miss Binkley was hit in the calf of her leg, but gamely finished the play without an outcry and then fainted.

The Tennessee House refused to receive retiring Gov. Hooper's message as an official document to be entered on the journal, on account of its alleged "slandering and abusive statements." Representative Stanton of Shelby county, speaker of the last house of representatives, declared on the floor of the house Wednesday that the parts of the governor's message charging gross irregularities in Memphis are dirty, scurrilous lies on my people." Gov. Hooper seems to be so constituted that he is unable to accept defeat gracefully and retire in becoming silence.

President Wilson has declined to change his views on the female suffrage question. He again told a large delegation of women who called on him that he considered suffrage a state issue.

"I am most unaffectedly complimented by this visit that you have paid me," the President told the women. "I have been called on several times to say what my position is on the very important matter that you are so deeply interested in. I want to say that nobody can look on the fight you are making without great admiration, and I certainly am one of those who admire the tenacity and the skill and the address with which you try to promote the matter that you are interested in."

"But I am tied to a conviction which I have had all my life that changes of this sort ought to be brought about by state. If it were not a matter of female suffrage, if it were a matter of any other thing connected with suffrage, I would hold the same opinion. It is a long-standing and deeply-matured conviction on my part and therefore I would be without excuse to my own constitutional principles if I lent my support to this very important movement for an amendment to the constitution of the United States."

"Frankly, I do not think that this is the wise or the permanent way to build. I know that you perhaps unanimously disagree with me, but you will not think the less of me for being perfectly frank in the avowal of my own convictions on that subject; and certainly that avowal represents no attitude of antagonism, but merely an attitude of principle."

"I want to say again to you how much I am complimented by your call and also by the confidence that you have so generously expressed in me. I hope that in some respects I may live to justify that confidence."

GOOD ROADS MEETING

Will be Held Next Tuesday at the Hopkinsville Business Men's Association Rooms.

COWHERD TO MAKE REPORT

Of the Operations of the Good Roads Association.

A meeting of the Christian County Good Roads Association is called for next Tuesday afternoon to be held at the office of the Hopkinsville Business Men's Association at 1:30 o'clock. There are several matters of urgent importance to be taken up at this meeting and every farmer and business man who possibly can be there is urged to do so.

One of the chief matters to be given attention will be the annual election of officers for 1915. Nominations for these places will be left to the meeting.

President S. L. Cowherd will review the year's work and other topics will be:

"How We Make Roads in Montgomery County, Tenn.," William D. Elliott, of Edgerton.

"Do We Want Convict Labor on Christian County Roads?" W. C. Binns and T. C. Jones.

"Community Interest in Making and Maintaining Roads," Charles E. Barker.

KITTY LEAGUE MEETING

Called For Jan. 15th In This City By President Bassett.

Paducah, Ky., Jan. 9.—For the purpose of setting the business of the 1914 season and considering arrangements for the 1915 season the Kitty league will hold a meeting about January 15, in Hopkinsville, Ky., according to President Frank H. Bassett, Paris, Tenn., and Vincennes, Ind., are reported to be applicants for berths and it is likely the other cities will make an effort to join the circuit. What old cities will retain their franchises is not known, although Cairo, Ill., and Paducah are reasonably certain. The Paducah association is expected to be reorganized, as J. W. Worrell, a traveling salesman and baseball enthusiast, has secured proxies for a majority of the stock and practically will control the selection of directors and business manager.

Buried at Pembroke.

Mrs. Helen Hart Stuart, widow of the late J. J. Stuart, formerly of this county, died in Louisville a few days ago, age 62 years. Two daughters, Mrs. H. B. McComb, of Jellico, Tenn., and Mrs. H. L. Donovan, of Louisville, and a son, John Robert Stuart, of Paducah, survive. She also leaves an only brother, Mr. Robert Hart, of St. Charles, Hopkins county. The body was brought to Pembroke for interment.

Money For Teachers.

Frankfort, Jan. 8.—Checks aggregating \$553,498.24 have been mailed by Barksdale Hamlett, State Superintendent of Public Instruction, to the rural and city school teachers. The checks are for the fifth installment due the teachers, after paying this installment there is more than enough money left in the school fund to meet the February installment when due.

167 Weddings a Day.

The year 1914 broke the marriage license record in New York City, according to figures made public by City Clerk Patrick J. Scully. In the five boroughs of the city, 60,981 licenses were issued, and increase over 1913 of 1,988.

TURKS HAVE BEEN BADLY LICKED

London Believes Menace to Russia is Lost by Defeat in Caucasus—Expects Turks to Fight on the Defensive Only.

RUSSIANS ARE POURING INTO HUNGARY

French Continue to Make Gains in Alsace—Fields and Roads of Flanders Under Water Halt All Except Artillery Fighting.

London, Jan. 8.—A complete change in the situation in the near east may be brought about by the Russian victory over the Turks in the Caucasus. If the Turkish defeat is as sweeping as has been reported officially—the virtual destruction of two Turkish army corps and the repulse of a third—the Turkish menace against the Russians in Trans-Caucasia has been removed. The loss of so many of their best trained officers and men, it is believed here, will compel the Turks to give up any ambition they had of invading their enemy's territories and force them to concentrate on the defense of their own country.

Military men, however, are taking even greater interest in the Russian invasion of Hungary through Uzsook Pass in the Carpathians and their rapid advance on Transylvania through Bukovina simultaneously with their movement toward Cracow. These combined operations are the most gigantic undertaken in the war.

In the meantime the Russians are held by the Austro-Germans in western Galicia. Field Marshal von Hindenburg, the German commander in northern Poland, can move but slowly because of the mud in his offensive operations against Warsaw.

A Petrograd dispatch says that aviators have observed German artillery at the frontier railway station

which cannot be moved because of the roads. It has been suggested that the Germans intended to use the Vistula for the transport of their guns but with the Russians in possession of the northern bank this obviously would be impossible.

Although the fighting has been intense at many points on the western front, there is little or no change in Flanders, where the fields and roads are under several feet of water. In that territory only artillery has been able to work but in northern France, between Lille and Arras, there has been some hard fighting in which trenches have changed hands more than once.

Hard fighting continues in Alsace, where the French claim an advance toward Altkirch. They apparently have got no further along the Cernay road from Steinbach.

The British admiralty is convinced that the battleship Formidable was destroyed by a German submarine. In making this announcement in the house of lords the Earl of Crewe divulged the information that the Spartan rule which the admiralty promulgated after the loss of the cruisers Aboukir, Cressy and Hogue, that no ship should go the assistance of another for fear she too might be torpedoed, has been carried out. The captain of the Formidable, although he knew his ship was doomed, signaled other ships not to stand by.

ONLY ONE PAPER READ

At Athenaeum But That Was a Good One and Provoked Lengthy Discussion.

The Athenaeum met Thursday night at Hotel Latham with only one paper for consideration. Mr. Geo. E. Gary wrote on "Renaissance," or a looking backward at old-time things, including birds, animals, etc., as compared with modern developments. The paper was versatile and intensely interesting and called forth a wide range of discussion and storytelling. The various members were "reminded" of quite a lot of good ones and there was a veritable joke-fest until eleven o'clock, in which the new members, Jim McKenzie and Prof. Peterson, scored heavily.

Those present were: Ira L. Smith, president; H. W. Linton, T. C. Underwood, L. E. Foster, Dr. M. Brown, W. S. Peterson, C. M. Thompson, J. J. Henry, L. H. Davis, Geo. E. Gary, Jas. A. McKenzie, Frank Rives, Dr. H. P. Sights, Chas. M. Meacham, J. W. Downer, W. T. Tandy, Jno. F. Bible, Dr. Austin Bell and T. J. McReynolds.

New Treasury Order.

The Comptroller of the Currency has issued instructions that no more overdrafts may be paid by National banks. Writing about the matter, he states: "You are advised that instructions have been given by this office to all National banks in Tennessee and elsewhere to discontinue entirely the habit of granting overdrafts, and similar instructions will be issued to all National banks not yet so advised. The directors will be required to pass a resolution prohibiting officers or employees from paying any check when the maker thereof has not on deposit sufficient funds with which to meet it."

Of the 7,000,000,000 cigars manufactured annually in Germany 52 per cent. are produced in Dresden.

OFFERING \$1.25 FOR WHEAT

Highest Price In Many Years But Practically No Sales.

FARMERS STILL HOLDING.

Speculation Still Causing Chicago Markets to Soar Skyward.

The wild conditions on the Chicago wheat market have affected the local price and yesterday the mills were offering \$1.25 a bushel, with no sales of consequence.

Comparatively few crops are still in the hands of the growers and they are holding for still higher prices.

May wheat in Chicago closed Thursday at \$1.38½.

Even conservative traders were willing to admit that exports at the rate of 2,000,000 bushels a day, if long continued, would seriously threaten the domestic supply.

Italy and Rumania were the countries mentioned as likely soon to be included in the war, and it could not be denied that much of the wheat bought was scheduled for shipment to Italy. Duluth reported a sale of Durum wheat to Italy at \$1.99½, delivered across the sea. Domestic millers were said to be eagerly after cash wheat in all directions, and as having been partly responsible for compelling Belgian relief buyers to be content with May delivery.

REGULATIONS FOR STAMPS

Better Read This and Govern Yourself Accordingly.

Washington, Jan. 8.—Regulations to govern the placing of war tax stamps on conveyances of real property were issued today by Commissioner of Internal Revenue Osborne. The tax is fifty cents on deeds that amount to more than \$100 and less than \$500, with fifty cents additional for each \$500 or fraction over \$300.

Where the consideration is nominal, or \$1, the tax must be computed upon the actual value of the property conveyed, liens deducted, and the executor becomes liable for the penalty if the proper amount of stamps is not affixed. A quit claim deed is not subject to the tax, nor are oil leases, and mining leases which convey no title. Deeds to cover gifts in a family or from an individual to a municipality are not taxable.

The internal revenue bureau also has issued further regulation affecting the payment of the tax on bills of lading. It announced that although it is the shipper's duty to pay the tax, the carrier may pay, and is jointly responsible in case any bill is not stamped.

The law, it was explained, does not apply to parcel post shipments. Street railways are subject to the requirements when they accept goods for transportation as part of their regular business.

Going to Bristol.

Dr. H. G. Cunningham, who returned to Cadiz from Oklahoma a month or two ago, has closed a deal for a new location in Bristol, Tenn., where he has formed a partnership in the dental business with Dr. G. W. Overby, one of the old and established dentists.

Revival at Tabernacle.

Rev. Frank Bunch, of Mt. Vernon, Ind., representing the General Baptist church, began a revival meeting at the Union Tabernacle Thursday night and services will be held every night at 7 o'clock.

The Council.

The council held an adjourned session Thursday night for disposing of unfinished and deferred business, mostly routine reports.

W. W. GARNETT PASSES AWAY

Leading Citizen of Pembroke, Died Thursday Night, Aged Seventy-six.

FUNERAL WAS AT PEMBROKE.

He Was a Gallant Confederate Soldier and Prominent Citizen.

William Warfield Garnett, one of the county's best citizens, died at Pembroke, Ky., at 10:30 p. m. Thursday night, after a short illness, of uremic poisoning.

Mr. Garnett was the second of a family of four sons of Eldred E. Garnett, who came to this county as a child in 1821. He became an extensive land owner and a leading member of the Baptist church. His wife was Miss Frances A. Pendleton. Their only daughter became the wife of the late Rev. R. W. Morehead, a noted Baptist preacher.

W. W. Garnett was born Nov. 9, 1838. He was educated at Bethel College, Russellville, and for many years was a merchant at Pembroke in partnership with his brother, J. P. Garnett.

In 1861 he enlisted in Co. H, 1st Ky. Cavalry under Col. Helm and served one year. On May 3, 1870, he was married to Miss Sallie Bailey. Their only child, Mrs. W. E. Forgy, survives. Also two of his brothers, Hon. Jas. B. Garnett, of Cadiz, and John P. Garnett, of Pembroke. Prof. Virgil A. Garnett, his oldest brother, died several years ago, also his sister, Mrs. Morehead.

Mr. Garnett was at one time a banker and was a man of wealth and influence and a lifelong member of the Baptist church. The funeral services and interment will be at Pembroke to-day.

LOCAL MEN AFTER PLACE

As Member of The State Board of Control—Dr. Gardner.

Three local Republicans are candidates for the position on the State Board of control held by Dr. T. W. Gardner, whom it is said will not be reappointed by Gov. McCreary. They are S. A. Pate, former steward; Judge W. T. Fowler and Odie Davis, who entered the contest this week. All have strong backing and the appointment is looked for any day.

AGED LADY

Of North Christian Passed Away Monday.

The wife of Mr. John H. Keys died last Monday at her home in the Palestine church neighborhood, North Christian, aged 75 years. The immediate cause of her death was la grippe. She was a member of the Baptist church. The interment took place in the Fuller burying ground Tuesday.

Two Entries.

Announcements for the Democratic nomination for Commonwealth's Attorney of the judicial district composed of McCracken and Marshall counties have been made by Jack Fisher, of Benton, and E. H. Puryear, of Paducah.

Richard N. Hudson, for a number of years general superintendent of the Louisville & Atlantic Railroad Company, a part of the L. & N. system in Eastern Kentucky, was elected president and general manager of the Louisville, Henderson & St. Louis Railway (Henderson route) to succeed L. J. Irwin deceased.

Panama City now has two breweries.

SATURDAY, JANUARY 9

ANNOUNCEMENT.

We are authorized to announce

HON. HENRY M. BOSWORTH
of Fayette County, as a candidate
for the Democratic nomination for
Governor of Kentucky, subject to
the primary election August 1915.

We are authorized to announce
JAMES B. ALLENSWORTH
of Christian county, as a candidate
for the Democratic nomination for
Commonwealth's Attorney, for the
Third Judicial district, composed of
Christian, Calloway, Trigg and Lyon
counties.

We are authorized to announce
HON. DENNY P. SMITH,
of Trigg county, a candidate for re-
election as Commonwealth's Attorney
of the Third Judicial District of
Kentucky, subject to the action of
the Democratic party at the primary
election, Saturday, August 7th, 1915.

White girls have succeeded the
negro waiters on the Michigan Cen-
tral dining cars.

Eddie Foy has been arrested at
Cincinnati for permitting his three
children under 14 to appear on the
stage.

Bishop C. E. Woodcock will cele-
brate the tenth anniversary of his
consecration at Louisville, January
24 or 25.

Miss Elizabeth Harrison, daugh-
ter of the former President, has
enrolled as a law student at Indiana
University.

Things must be getting desperate
indeed with the machine rats, who
are hunting some one to bell the
Stanley cat.

Gov. Rye is to be inaugurated at
Nashville next week, probably the
11th or 12th, as decided by the gen-
eral assembly.

The Muhlenberg grand jury, which
convenes Monday, is expected to
make a thorough investigation of
possum hunter crimes in that county.

Gov. West, of Oregon, has just ap-
pointed a woman, and an unmarried
woman at that, to a vacant seat in
the state senate. The new senator
signs her name Kathryn with a "y"
and Clarke with an "e."

Forty Paris lawyers have been
killed in battle. If they were di-
vorce lawyers they can be spared.
European women with live husbands
are holding on to them now.

A complication has arisen because
Paducah's new commission has
forgot to qualify in the time fixed by
law. Rather a poor start for a busi-
ness administration, but Paducah
may not have wanted commissioners
real bad.

The war stamp will hereafter be a
private detective in the employ of
the assessor. Deeds must be stamped
according to the real value of the
property, even where the considera-
tion is "\$1 and other valuable con-
siderations."

Will Vance, under indictment as a
possum hunter, has brought a \$5,000
damage suit against J. P. Cox, at
Greenville, charging that Cox shot
and wounded him. Cox claims that he
fired a bunch a into of possum hunters
and li Vance.

Russia reports that Poles not in
arms are being captured and treated
as prisoners of war by Germans, in
districts controlled by them, and sent
into Germany. In one case 19 were
shot for failing to report at German
headquarters when ordered. Ger-
mans are also accused of confiscat-
ing provisions and leaving Polish
families to suffer from hunger.

TRAINING SHEEP DOG

Collie Should be Taught Wholly
by One Person.

Lessons of Half an Hour Daily are
Sufficient and First One Should be
Learned Thoroughly—Pup
Should be Watched.

(By A. J. EWEN.)

A good collie will be ready to begin
to learn to drive sheep at about
three months of age. He should be
taught wholly by one person.

First teach him to lead, placing a
string about his neck. He will soon
learn not to try to get away and to
come on hearing the word "Here," or
whatever word is chosen, pulling on
the string until he learns to come
promptly.

Lessons of half an hour a day are
enough and this first lesson should be
learned very thoroughly, so that the
dog will come from any part of the
yard instantly on hearing the word.

Next he learns the meaning of the
word "Go" by using the word when
sending him through an enclosure,
continually repeating the lesson until
he acts promptly.

As a part of this lesson he should
be taught to stop anywhere on the
word "Halt," emphasized at first by
pulling on the string, which should be
attached to his neck.

The word "Whoa" is also used by
some trainers to indicate that the
teacher is through with him for the
time being and the dog soon learns to
understand it.

While driving sheep it is convenient
to have the dog understand the word
"Speak" which means that he is to
begin barking, and he can be taught
the word very easily by holding up
something which he wants to eat and
using the word.

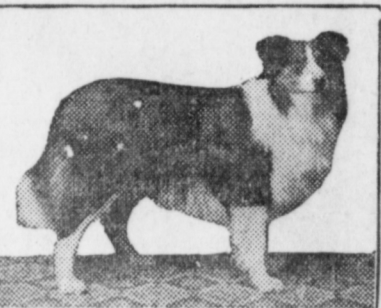

The meaning of "Out" is easily
taught when the dog is in the house
by opening the door and pronouncing
the word.

After this preliminary education he
may go out with an old trained sheep
dog. By running with him the pup
will soon learn much about the busi-
ness, but should be watched to see
that he does not try to go to the
heads of the cattle.

After letting him try with the older
dog for a few times he should be taken
to the sheep or cattle without the
other dog.

If the cattle have been used to be-
ing driven by dogs they will not turn
upon him, an occurrence which might
injure his driving qualities for some
time to come.

He should learn the meaning of
"Steady" when inclined to drive the
cattle fast, and if the first training is

A Good Sheep Dog.

well done will stop promptly when
told to halt.

The word "Fetch" is commonly used
when sending the dog to drive sheep,
and the word "Go" for cattle; and the
dog will learn to understand which
his master wants him to drive.

He should be taught to know the
left from the right, obeying the mo-
tion of the hand in either direction.

KEEPING FIELD EDGES CLEAN

Many Farmers Do Not Make Much
Effort to Discourage Encroach-
ment of Trees Along Creeks.

Most owners of creek farms do not
make any great effort to fight the
brush and timber that keeps creep-
ing in from the woodland along the
fields. Where there is plenty of rain-
fall, the timber can crowd in on the
fields very rapidly, and the farmers
who do not desire to have the size
of their fields decrease should make
every effort to keep the edges of the
field trimmed up.

White elms are especially bad about
working into a field. This tree has
long limbs, which grow for really
wonderful distances over the fields,
shade the ground, and prevent the
crop from making a profitable growth.
Then the tree produces great amounts
of seed which fly out over the fields,
where they sprout and begin to grow.
It is true they usually will die, but
they cause as much bother as weeds
and they must be killed.

Fruit-Growing Possibilities.

The fruit-growing possibilities of
this country are so great and as yet
so slightly tested, and the successes
that have been achieved even on the
largest scale have been so largely
matters of accident or surprise, that
the limits of the fruit-growing dis-
tricts, and even of the principal fields
of production, cannot yet be regarded
as finally determined.

Man Who Improves Dairy.

If the man who causes two blades
of grass to grow where one grew be-
fore is to be called blessed the same
thing should be said of the man who
improves his dairy until it produces
twice as much butter as it did before
he began with it.

Worth Weight in Gold.

Abingdom, Va.—Mrs. Jennie Mc-
Call, of this place, says: "I had been
troubled with female complaints,
for over ten years I could not walk
or stand on my feet, and had been
almost confined to the house, for a
long time. I began to take Cardui,
the woman's tonic, and now I can
walk anywhere I want to go. Cardui
is worth its weight in gold." This is a high estimate on a plain,
herb medicine, yet there are thou-
sands of women who would gladly
pay this price for a remedy to relieve
their suffering. Cardui has helped
others. Why not you? Try it. Your
druggist sells it, in \$1 bottles. Ad-
vertisement.

Unusual Offer To Our Readers.

For a limited time, and subject to
withdrawal after 30 days, the well
known publishing house of the J. B
Lippincott Company, Philadelphia
founded in 1792, offers to the reader
of this paper a 12 months' subscrip-
tion to "Lippincott's Magazine" and
a year's subscription to the Kentuck-
ian, both for \$3.00. This is the price
of a twelve months' subscription to
"Lippincott's" alone. Additional to
obtaining every issue of this paper
for a year, our readers will receive
in "Lippincott's," 12 great complete
novels by popular authors, 105 short
stories, crisp, entertaining, original
45 timely articles from the pens of
masters, and each month some ex-
cellent poems with the right senti-
ment, and "Walnuts and Wine," the
most popular humor section in
America. To obtain this extraordinary
offer prompt action is necessary.
Remit to J. B. Lippincott Company,
Washington Square, Phila., Pa.

Irish Prefixes of Honor.

The belief prevails in parts of Ire-
land and Europe that only five fam-
ilies rightly bear the O—the O'Neills,
high monarchs of Ireland and kings of
Ulster; the O'Donnells, princes of Tyr-
connell; the O'Connors, kings of Con-
naught; the O'Briens, kings of Thom-
ond, and the O'Flahertys, princes of
far Connaught. Sir Henry Piers wrote
in 1682: "Such as have O prefixed were
of old, superior lords or princes, and
such as have Mac were only great men,
viz, lords, thanes, etc." "I would rather
be the O'Neill of Ulster than king
of Spain," declared the immortal
Shane O'Neill to the British Elizabeth
when requested to change his Irish
title for an English dukedom, and as
such, claiming Ireland's throne, he
died.

Always at Freezing Point.

In the greatest depths of the ocean
the temperature is a little above freez-
ing, no matter what it may be at the
surface. When the dragnets which are
used in the work are brought to the
surface containing specimens of ani-
mals and fish inhabiting the deep,
most of the creatures are dead. In
fact, all those from the deeper points
are killed by removing them from
waters of great hydrostatic pressure
to continuously decreasing pressures.

The Julian Calendar.

The great Julius Caesar, B. C. 45,
was the first to reform the calendar
by ordering that every year whose
date number was exactly divisible by
four should contain 366 days, and all
other years 365 days. It was Caesar
who changed the beginning of the
year from the first of March to the
first of January. The Julian calendar
continued in use until A. D. 1582.

NOTES FROM HOG LOT

Money in Pushing the Pigs for
Early Maturity.

No Farm Animal More Fully Appro-
priates Pure Water Than Swine—
Provide Plenty of Range—
Keep Yards Sanitary.

Movable hog houses have come to
stay.
Early maturity decreases the risk
from disease.

The pig's bed is of as much impor-
tance as his food.

The breed is of less importance
than the surroundings.

It does not pay to allow pigs to run
through a wet pasture.

Bran is an excellent substitute for
succulence in the sow's ration.

It is a poor idea to think that any
one breed is free from disease.

A liberal feeding of roots to the
brood sows insures healthy pigs.

Thousands of young pigs are annu-
ally lost through lack of exercise.

To be successful a man must be
particular with his breeding stock.

The cost of the product is lessened
by pushing the pigs for early ma-
turity.

Clover is our cheapest hog food, and
every farmer should plan to use all
he can.

Health is natural, disease is unnat-
ural, health is contagious as well as
disease.

To make hogs profitable we must
provide plenty of range, that we may
keep their yards clean and sanitary.

A successful hog grower must do
this thinking for himself after he
reads the writings of other hog-grow-
ers.

Maintaining a steady gain in weight
and a high degree of health are two
secrets of success in making pork
cheaply.

The loss of condition at weaning
time may be greatly reduced if the
pigs have been accustomed to supple-
mentary foods.

While the hog is considered the
most filthy of animals, yet no kind of
animal appreciates pure water more
than the hog.

Better send the pigs to bed hungry
than to send them into a wet nest
with a full stomach. The results are
the same and the cost less.

It will pay any hog-grower to dip
all of his growing pigs, at least once
a month, to keep their skin in good
condition and free from lice.

In economical pig-feeding we must
make the most of our grain feeds by
mingling them with coarse cheap
foods, thereby reducing the cost of
the ration.

Every change in feeding should be

Seven-Hundred Pound Sows.

gradual and with an eye open to note
the results. It is no more our mis-
sion to keep the hogs healthy than it
is to plan our equipment so that they
may keep themselves so.

FARMERS ARE GREAT MOVERS

Figures Show That Many Agricultur-
ists Move Before They Become
Acquainted With Farms.

Statistics prepared under the direc-
tion of the department of commerce
show that farmers are incessantly
moving.

Replies from nearly 6,000,000 farm-
ers in answer to the question how
long they had resided upon their
farms showed that 52 per cent had
moved within five years. Over 1,000-
000 farmers had moved within a year.
In the North, 57 per cent had lived
upon their farms five years or longer;
in the West, 44 per cent, and in the
South, 41 per cent.

These figures are significant, in the
opinion of the government authori-
ties, because they show that farmers
move before they have had time to
become acquainted with the various
conditions of the soil and climate of
any one locality, this lack of knowl-
edge resulting in a small yield of
crops per acre, in neglect of buildings,
and in failure to conserve the fertility
of the soil. Still, nothing can be done
about the matter until some way can
be found to eradicate the roving germ
in human nature.

Selection of Dairy Cow.

A reliable guide in selecting a dairy
cow is to determine her actual butter
fat record. This can be done by
weighing the milk produced by each
cow in your herd and by determining
the per cent of butter fat through fre-
quent tests of the milk by means of
the Babcock test.

Natural Feed for Hogs.

The natural feed for hogs is not
liquids but solids, therefore, we can-
not understand how some men believe
they can fatten hogs on slops alone.
Many of them keep on trying year
after year but never succeed.

J. C. H. GE. Agt.

A Strange Story.

Argyle, Mich.—Mrs. Wm. H. Carson, in a letter from Argyle, says: "I was almost wild with pains in my head, and other severe pains, due to womanly troubles. Cardui gave me great relief at once. Further use of Cardui raised me from my bed of agony. Cardui saved my life, and I can't be thankful enough for what it did for me." Whether seriously sick, or simply ailing, take Cardui, the woman's tonic. As a general tonic for women, to improve the appetite and build up the constitution, Cardui is in a class by itself. Those who have used it say it does the work; it relieves, it cures. Try it. Your druggist has it.—Advertisement.

Hopkinsville Market Quotations.

Corrected Jan. 1, 1915.

RETAIL GROCERY PRICES.

Black seed oats, 63c
Mixed seed oats, 65c
No. 2 white corn, 90c
Winter wheat bran, \$26.00

FOR BETTER ROADS

WINTER ROAD WORK NEEDED

Many Little Improvements That Can Be Made Which Will Combine to Improve Conditions.

American farmers seem to lose sight of the fact that our roads are traveled and cut up by man and beast and washed full of ditches by the elements for twelve months every season, while the period during which there is any improvement along the highways covers but one-half that length of time—perhaps less than that.

Is it any wonder that our road system improves so slowly under such conditions? Winter road work is of vital importance. Of course we cannot get out and dig, plow, scrape and grade in sections where the ground is frozen, but there are many little improvements that can be made which will combine to establish more favorable conditions, both during the winter and when the time comes for more active work next season.

Sometimes it is a strip of brush or shrubbery along the fence that ought to be removed, but in any event they must be got rid of, hence they, in addition to the above detriment, prove a nuisance to the traveling public in the summer, by shutting off the air when the days grow sweltering. Then, too, the drying effect of the sun and wind is shut out from the roadbed and this also yields a most detrimental influence on the condition of the roads.

But one must exercise good judgment in the disposition of brush growing along the road. If the drain ditch on each side of the track is somewhat deep, toss the brush into it till it is the proper depth for good drainage, and to prevent further wash; then throw in no more.

If the ditch is about the right depth at the start, keep all the brush out of it so that ample drainage is certain. Bear in mind that correct drainage is the most important factor to be considered in the maintenance of good roads. A firm, compact roadbed cannot exist where water settles on the surface or soaks into the soil and remains there.

Then, many bridges get in bad repair during the winter months. A board or two may be loosened or a treacherous hole may be just right for one or both of the horses to step a foot into it and break a bone. By keeping an eye on these places, one will be enabled to repair them just before they become dangerous, which will help to distribute the road work through the whole year, instead of only six months at a time, as well as arranging so that all of the labor may be as nearly cleaned up as possible when the spring comes. Then real improvement of the road may be carried on at once, without any preparatory or repair work being done.

The most important thing that must be kept constantly in mind is that of dragging the roads whenever practicable in winter. Of course we cannot make use of the drag every day, but there are days when the slight thawing again begins to freeze on the surface of the earth, the dirt is brittle enough to be moved and yet it will not roll or clog up on the drag. This is when the road reaches its worst stage through being cut up by travel and if it is left in this condition it freezes that way, making it rough and rutty till it thaws out the following day.

Working down with the drag will brush off and crush the clods and the high places, filling up low and rutty spots, leaving the roadbed smooth and more compact. The ground then freezes up before it is cut up much more by travel, and thus the track will be smoother and easier than if allowed to freeze up just as the whole day's travel left it.

Any snow or rain that falls on a stretch of road thus treated with the drag will have no ruts and low places to retain the water and make the roadbed soft, yielding and difficult to drain or dry off.

Furnish Green Stuff.

Good succulent green stuff should be on hand at all times. It should form a good part of the daily ration, for chicks need bulk as well as nourishment.

Best Dairy Farming.

The best kind of dairy farming keeps the skim milk on the farm and markets it as young stock, pork and poultry products.

Age of a Fowl.

The age of a fowl is always disclosed by the condition of its legs. If the skin is hard and rough be sure it is an old one. The delicacy of the skin of the face indicates youth.

Excellent Insurance.

A grain bin on a farm is excellent insurance against forced sale at low price.

Tax Keenly Felt.

Poor roads impose a tax never more keenly felt than at grain-hauling time.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

The year 1914 has been the most extraordinary in the history of modern times. It has witnessed the outbreak of the great European war, a struggle so titanic that it makes all others look small.

You live in momentous times, and you should not miss any of the tremendous events that are occurring. No other newspaper will inform you with the promptness and cheapness of the Thrice-a-Week edition of the New York World. Moreover, a year's subscription to it will take you far into our next Presidential campaign.

THE THRICE-A-WEEK WORLD's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and Hopkinsville Kentuckian together for one year for \$2.65.

The regular subscription price of the two papers is \$3.00.

Send all subscriptions to Kentuckian office.

"MARTA OF THE LOWLANDS."

HEAVY LOSSES

Sustained By American Insurance Companies On Policies of European Soldiers.

Paris, Jan. 8.—One of the American life insurance companies has paid out about \$400,000 on policies held by soldiers who were killed in the war. The last policies issued which cover the war risk were dated July 25. After that date American policies were so modified as to exclude all risks connected with the war. A captain of artillery, who paid his first premium on a \$5,000 policy on July 25, was killed in one of the early engagements.

Annuitants and claims in case of death from natural causes are being paid promptly by American companies, while others, in accordance with the provisions of the moratorium are paying no annuities in excess of \$240 per year and no death claims.

Order Held Up.

The order of the Fiscal Court fixing the salary of the County Agriculturist at \$1,500 was held up at the final meeting Tuesday and action postponed. The last appropriation runs until Mar. 15.

New Mill Charter.

The Imperial Mills, of Clarksville, has been granted a State charter to do a general milling business. The incorporators are W. J. Dickinson, E. L. Carney, L. C. Westenberg, E. B. Laurent and E. L. Hinson.

Last year railways of Britain carried 1,228,316,000 passengers and 371,571,000 tons of freight.

VICK'S Croup and Pneumonia SALVE

MRS. H. CLAY SMITH

Death of a Lady Greatly Beloved in Hopkinsville.

Mrs. Minnie Pulliam Smith, wife of Prof. H. Clay Smith, died in Louisville Wednesday night, aged 56 years, of a complication of diseases. She was born at Hawesville, Ky. Mrs. Smith lived in this city for ten years, having charge of the girls dormitory of McLean College, while her husband was connected with that institution. She greatly endeared herself to the many girls who came in contact with her. She was a devoted member of the Christian church.

One son, Pulliam Smith, of Chicago, survives her. Also two brothers. The burial was at Warsaw, Ky.

Can't Control Cincinnati Cars.

The Supreme Court of the United States has handed down a decision in which it holds that ordinances of the city of Covington as to the manner of the operation of street cars are void when such cars are engaged in interstate commerce.

Collected \$8,000.

With \$8,000 collected for the anti-literacy campaign, the Woman's Forward Kentucky Movement formally closed its campaign, declaring it was a success in spite of adverse conditions.

Good Record.

No single passenger out of the 188,411,376 carried in 1914 on all of the 26,198 miles of track of the entire Pennsylvania Railroad system was killed in a train accident.

Centenarian.

Harrison Johnston, one of the wealthiest citizens of Mississippi, celebrated the one hundredth anniversary of his birthday at Columbus, Jan. 7th.

Rate Upheld.

The United States Supreme Court upheld the original rate and reparation orders of the Kentucky Railroad Commission, issued under the McCord act.

D. A. R. Meeting.

The Col. John Green Chapter D. A. R. will meet at the Public Library at 3 o'clock next Monday afternoon.

Won Piano.

Miss Geneva Sweat won the piano prize in the Lewisburg Leader's popularity contest.

Beware of Ointments for Catarrh That Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage from them is often tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price 50c per bottle. Take Hall's Family Pills for constipation. Advertisement.

IS AS OLD AS THE WORLD

Boy Problem Now, as Always, the Most Vexing Question for the Centuries.

Wars come and go, rulers fall from power, but the boy problem is ever in the public prints. Reading the continuous lamentations with earnest attention, it seems that the boy is always in danger of growing up and becoming a man and that he must be watched very closely. On the other hand, some of 'em become sissies, a fate that is distinctly more to be regretted, although the uplifters say nothing about it. Assisting this pernicious instinct is the boy's own ardent desire to be a man. And that is only excelled by his desire, when that happy estate is reached, to become a boy again. The great joke on every boy is the exchange of boyhood for manhood, and to this all men contribute, more out of a spirit of cynicism and revenge than anything else.

As a matter of fact, the boy of fourteen and sixteen knows more things worth knowing and fewer things that are best left unknown than the man of forty or sixty. The wisest thing in the world is the boy in his early teens, and his only folly at all is growing out of them. Life is thoroughly complete for the boy, and if only there were no men to encourage an ambition toward manhood's privileges, all would be well. It is while he is Christopher Columbusing around in those early days that he learns all the human nature there is. Relationships are very direct and associations intimate. There is little equivocation, and subtlety has the frankness of earnestness instead of the duplicity of deceit. Impressions are vivid and the way to make a good, steadfast, lifelong enemy is to give needless offense to a boy of ten years old.

The boy of today knows far more than his father will ever suspect, but, under careful tutelage and great patience on the part of the son, the fathers are doing better right along, and, taken as a class, are improving distinctly and with as much celerity as can be expected.—Seattle Post-Intelligencer.

ALL COUNTRIES LEVIED ON

Entire World Contributes to the Making of the Famous Biscuits of America.

From Zanzibar, East Africa, the biscuit man buys his cloves. Mace comes from the far-away Straits Settlements of India and Malacca in the Dutch East Indies. Flgs are gathered in California and in the groves of Turkey. Many green acres of California and of Greece yield their supply of currants. Cinnamon is gathered in the East Indies; ginger roots from Cochinchina, and from Jamaica in the West Indies. From Jamaica also is gathered the allspice. From Trinidad in the West Indies and from South America comes the cocoa. Citron comes from Italy and Spain. From the ancient groves of Italy the extracts of lemon and of orange are procured.

The rugged hills and fertile valleys of Spain yield their almonds; walnut meats come from France. Filberts come from Turkey and Spain, and grated pineapple from the Hawaiian Islands. From Ceylon, the San Blas coast of Panama, Trinidad, Porto Rico, Jamaica, Rumania and Saint Andrews are gathered the cocoanuts. Nuts of finest quality come from the coast of British Honduras.

America furnishes the other, and indeed, the chief ingredients of the biscuit, for from our own country come the cheese, lard, eggs and butter, pecans, honey, fruits and jellies, and also the molasses and sugar; and miles and miles of yellow fields of grain yield the kernels of wheat.

Stopping the Procession.

The fact that the little we can do to make the world better is small indeed is often our excuse for doing nothing, but it is a very poor excuse. In reality it should be the very reason why we should do our little and do it up to the limit of our best possible. The world is not made better all at once and by the big achievements of one or two; it is a slow process and the little goodnesses of a multitude of people combine to make it possible. If it came easily and suddenly and through individual effort we might easily shoulder our responsibility on some one else, but when it is such a slow business at which a multitude must work then to neglect our part is a sin and a crime. Because it is so little that the best of us can do, it is all the more important that the little be done after the best fashion, lest the whole process, so slow and laborious at best, still stay and linger for want of us. No, we ought not to stop the procession.

Bravery Was Toothache.

While some old soldiers were telling war stories one of them recalled a curious incident. He had a raging toothache and the night before the battle hardly slept a wink. Next day he was in line with his regiment, and there was the usual nervous apprehension among the men, but he was fully occupied with his aching tooth. Suddenly the fight was on, and with a yell he started forward at the head of the company. He yelled and cheered and fought for two hours, and when victory was won he was highly complimented for his bravery. "Yet," said he, "it wasn't bravery at all. It was that awful tooth, and my desire to do anything to banish the jumping pains."

Princess

EXTRA

Starting Tuesday, January 12th

"The Mendelssohns"

A QUARTETTE

Including The Following Cast:

Miss Sadie MacClaren, Miss Ruth Beebe, Miss Rose Gergen, Miss Florence Hitchcock, an organization presenting in an unusual way the Masterpieces of Music, both instrumental and vocal. Remember the price of Admission will remain 5c and 10c.

Tuesday, January 12th.

The Rex Princess

The Rex presents an extra good program today.

The Master Key is the leading feature, but Francis Ford and Grace Cunard run a close second. These popular people who have endeared themselves to Hopkinsville people through their work in "Lucille Love," appear in "The Call of the Waves," a two part picture that brings out their talent splendidly.

For Monday Mgr. Shrode has secured a five part Famous Player picture featuring Bertha Kalich, the famous actress. The picture is entitled "Marta of the Lowlands" and is one of the well known stage successes.

Manager Stockley has something first class to offer next week as extra attraction at the Rex. The musical organization known as the "Mendelssohns", four highly accomplished young lady musicians, is en route from the South to Chicago. Mr. Stockley was fortunate in inducing them to break the trip by a stop-over here at a price that enables him to keep the regular schedule of prices. The name is chosen by the quartette because much of their music is from Mendelssohn's masterpieces.

Kentucky Fifth Apple State.

The states leading in production of apples last year were:
New York, 48,600,000 bushels;
Pennsylvania, 23,100,000; Michigan, 17,200,000; Virginia, 15,300,000; Kentucky, 14,700,000; Ohio, 13,300,000; Missouri, 12,400,000; North Carolina, 9,600,000; Tennessee, 8,000,000; and Washington, 8,300,000. The total yield was 259,000,000 bushels.

Odesa cattle market is the largest in Russia.

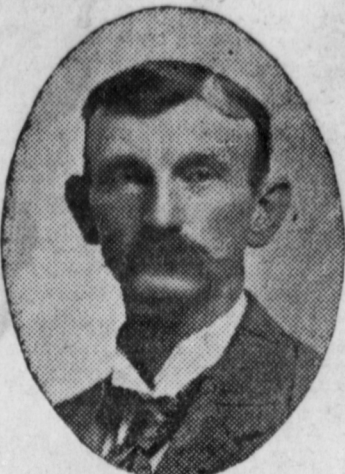

MEN IN MIND IN HOPKINSVILLE

People of Prominence In The
Pearl City of The Penny-
royal.

BIOGRAPHICAL SKETCH NO. 67.

This Handsome Face Belongs
to Dick Moseley, The
Meat Man.

One of the new business men of Hopkinsville who has quickly built up a profitable business, is Richard L. Moseley, the proprietor of the meat market on Virginia street, opposite Hotel Latham.

RICHARD L. MOSELEY.

Mr. Moseley was born on a Christian county farm and was a successful farmer until two years ago, when he came to town and shortly afterwards opened a meat store at his present stand. Being of a genial disposition, with a wide circle of friends, he quickly gained the patronage of the public and his business grew rapidly from the first.

A stock raiser all of his life, his knowledge along this line has stood him well in hand and he now has one of the leading meat markets of the city.

Mr. Moseley belongs to that class

of unmarried men whose age is uncertain. He admits being several years beyond the legal age of 21. In fact he was prominent as a Democratic committeeman and party leader in the Casky district for several years before he moved to town. He is a brother of Joe E. Moseley, Chairman of the Democratic Executive Committee of Christian county. He belongs to the Elks and other lodges and is a regular attendant at the Sunday School of the First Baptist church. His friends call him Dick for short, but there is nothing else short about him.

PURELY PERSONAL

Dr. Jas. E. Oldham has returned from Kirksville, Mo.

Dr. G. H. Grace, of Greenville, has moved to this city and opened offices over W. T. Cooper's grocery.

Miss Carolyn Radford has returned from a visit to Miss Frances Chappell, in Cadiz.

Messrs. Fred'k A. Wallis, of New York City, and Allan D. Wallis, of Philadelphia, Pa., will arrive this afternoon for a short visit to their parents, Mr. and Mrs. A. M. Wallis.

Dr. Joe A. Wall, has gone from New York to Scranton, Pa., to be assistant superintendent of the Pennsylvania State Hospital. Dr. Wall is a Hopkinsville boy, a son of Mr. J. T. Wall, and his friends here are glad to know of his promotion.

Miss Dorothy Rorer, of Paducah, arrived Thursday to visit Miss Bertha Lacey, on South Main Street.

Groom 71, Bride 64.

Zenas Alexander, aged 71, and Mrs. Susan Mathis, aged 64, were married near Caledonia in Trigg county, where they are prominent residents. Both have been married several times before. The groom is a Confederate veteran.

FOR SALE—One dozen early Buff Orpington pullets, some of them laying. MRS. W. S. DAVISON. Advertisement.

WILL CHECK BOND ACCOUNTS

Former Mayor Makes Statement
Saying Books Balanced
When He Retired.

IRREGULARITIES CHARGED.

Special Committee Appointed to
Investigate Make Sensa-
tional Charges in Report.

Ex-Mayor W. I. Thompson, against whom some sensational charges were made in a report filed with the city council, by a special committee appointed to investigate and check up the bonds issued for street improvement, stated last night that, according to all accounts, the bond collections and accounts balanced when he retired from office. Mr. Thompson says he intends to audit the accounts and that he "knows when the bonds and coupons are checked, no shortage will be found."

The Ex-Mayor's statement follows: "The first bonds were issued under the present law, whereby the property owners paid for the street intersections. On suit being brought it was decided that the property owners were not liable for the street intersections. The assessments had to be revised and the intersections charged to the city. There may have been some errors made in the totals and assessments."

"The special committee notified me that a meeting would be called and invited me to the meeting, but I was never notified at what time the meeting would be held. I would have been glad to have met with the committee and assisted in checking the bond issue."

"The sensational report filed by the committee will make it necessary for me to audit the issue of all the bonds. When I retired from office, according to the accounts filed with me by the contractors and the collections made, everything balanced."

GROCERIES!

A full and complete line of Staple and Fancy Groceries. When you want something good to eat come to see me, I can fill your wants. Also a full line of Fruits, Nuts and Candy, Oysters and Celery always on hand. Yours to please,

J. K. TWYMAN

Phone 314.

204 S. Main Street.

The alleged missing numbers of bonds were never issued, and I know that when the bonds and coupons are checked, no shortage will be found. (Signed) W. I. THOMPSON. Henderson Gleaner.

Insurance Merger.

The Great Southern Fire Insurance Company will be consolidated with the Henry Clay, of Lexington. The home offices of the Henry Clay will be continued in Lexington. The deal, when closed will make the Henry Clay the biggest fire insurance company in the South.

Meeting For Children.

All children interested in prohibition, and all those who worked in a campaign are requested to meet Mrs. Pentress and Mrs. Keith at the Cumberland Presbyterian church, this afternoon at 2 o'clock.

Mrs. Amelia A. Meyers.

WAR! What Is It All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armour clashing just because Russia wanted to show her love for the little brother—Serbia?

Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions may be sacrificed. Read the history of the past one hundred years, as written by one of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE!

Duruy's History of the World

Four splendid cloth volumes, full of portraits, sketches, maps, diagrams

Today is the climax of a hundred years of preparation. Read in this timely, authoritative, complete, AND THE ONLY CONDENSED classic world history—of which over 2,000,000 copies have been sold in France alone—just what has taken place in the inner councils of Europe during the past one hundred years. Read in these entrancing pages how Russia has for years craftily been trying to escape from her darkness—to get a year-round open port, with its economic freedom.

Read how Germany and Austria, fearful of the monster's latent strength, have been trying to checkmate her and how they have pinned all in this last, supreme stake.

The Lesson of the Past

THIS master of the pen shows you the glory that was Greece's and the grandeur that was Rome's. He guides you through the Middle Ages, the picturesque old days of feudalism and the crusades; through the Renaissance up to contemporaneous history, which Prof. Duruy completes in brilliant manner. In the story of the past lie the secrets of today. And you will understand them better when you get the Review of Reviews for a year—for the Review of Reviews will give you a sane interpretation of the events that are taking place with such rapidity. It is not enough to read the daily news reports. Your ability to comprehend conditions, and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos—and the Review of Reviews will do it for you.

Get the REVIEW OF REVIEWS for a Year

Send No Money

Send the coupon only. It brings the whole set—four volumes—charges prepaid—absolutely free. All we ask is that—after you get the books and like them—you send 25 cents for shipping and \$1.00 a month for three months to pay for the Review of Reviews. If the books aren't worth more than you pay for books and magazine together, send them back at our expense. But be prompt. The world-wide fame of Duruy will make these 5,000 sets disappear from our stock room at once. Send your coupon today—and be in time.

When you insist upon Daggett & Ramsdall's you get the best cold cream in the store.

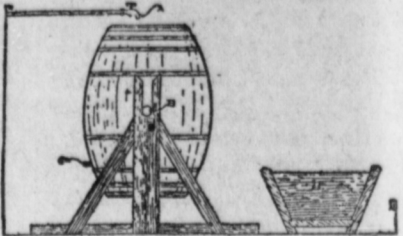

LIVE STOCK

FEED MIXER IS CONVENIENT

Barrel Swung on Pivots by Extending Round Wooden Axle Through It—Is Easily Moved.

A farmer who feeds a number of hogs uses several feed mixers, such as shown in the accompanying illustration, says Farm, Stock and Home. A barrel is swung on pivots by either extending a round wooden axle through the barrel, as at B, or by fastening iron trunnions to opposite sides of same with bolts. The barrel is then suspended in the air in the wooden frame, as illustrated. Feed of all kinds that is mixed with water may be quickly mixed in this device, and as quickly emptied in the trough D.

Handy Feed Mixer.

by raising the barrel and tipping the feed out in the trough. The tipping handle is shown at C, and a water pipe with tap at A. Two men can easily move this device.

HARM BY ANIMAL PARASITES

Some of These Insects Create or Manufacture Injurious Toxins—Others Transmit Disease.

(By H. S. EAKIN, Colorado Experiment Station.)

Too little attention has been given in the past to the importance that animal parasites have in relation to the health and well being of our domestic animals.

Very few, if any, animals are ever free from parasites in some form, and many are infested with parasites, of a very harmful nature. Parasites are found in many different tissues, as the brain, sinuses of the head, air passages, lungs, liver, stomach, intestines, muscles, blood, etc., and externally on and in the skin, in the ears, etc. Some of these cause mechanical disturbances, others create or manufacture toxins which are injurious to the animal infested, some transmit diseases. Some animals may carry one form of parasite which may later infect other animals of a different species in a different form. Some of these parasites are transformed from animals to man and vice versa.

Animal parasites annually cause great pecuniary loss, and for other reasons briefly enumerated above, more attention should be accorded the domestic animals; and should any suspicion be directed to an animal, competent veterinary advice should be immediately secured.

FEEDING CORN ON THE STALK

Unbusinesslike Method of Turning Pigs Into Field and "Reckon" They Are Doing Well.

More corn on the stalk will probably be fed to hogs this year than ever before. It is not a great deal of satisfaction to see a bunch of shoats doing well in standing corn and not know what price they are paying for the corn. We wouldn't sell corn as a rule to any man on that basis, but a good many of us seem to be willing to "reckon" that the hogs paid a pretty good price for the corn and let it go at that. Handy stock scales are too important a part of the farm equipment to be without, considering their cost and the great educators they are. To be able to state in pounds what crops and live stock produce is just plain business. To be forced to give an estimate in terms of "pretty good," or "poor," or "fair," or others as indefinite says plainly "I am a generation or more behind time."

LIVE STOCK NOTES

A heavy coat of hair is a burden to a road horse.

There is no profit in letting the colts lose their colt flesh.

If the pigs are cold and pinched they can make no gain.

The sheep is a dual purpose animal, producing both wool and mutton.

There is every reason for watering stock before they are full of dry feed.

If pigs could talk they surely would say, "Balance our rations and watch us pay."

Hogs are not provided by nature with hair to protect them from cold and drafts of icy air.

Feed that suits one animal may starve another. Study individual taste among the live stock.

If we could once and for all rid this country of hog cholera what a wealthy nation we would become.

Means of Offense and Defense. Many reptiles use their tails to strike down their game, while a large number of animals are supplied with pungent odors or secretions that are equally potent as a defense. In certain groups we find enormous horns and tusks that are intended entirely for purposes of protection. In some cases they are upon the top of the head, as in our cows or oxen. Again, as in the elephant or some cetaceans, they are highly developed teeth.

ALWAYS JOY IN GOOD WORK

Pleasure in Doing, No Matter What
the Task, Lifts It From the
Thought of Drudgery.

One of the changes which must be
gradually introduced into industry if
we are to prepare the way for a fresh
outburst of human spirit in it is to
increase the element of pleasure, re-
marks the Engineering Magazine. There
are parts of industry which are now
fascinating to the workers. Western
America glows with the enthusiasm
of the conquest of nature by the mind.
Many engineering conceptions, many
smoothly interlocking systems of ad-
ministration and many conserving
plans of financing, have been accom-
panied in the doing with thrills of
delight, which have bound the per-
formers like lovers to their tasks.

Good work and joyous work are, in
the long run, the same. Wherever in
industry good things have been done
—wherever achievements have been
characterized by vigor and largeness
of plan, simplicity and directness of
method, and nervous beauty and finish
of detail—we may be sure that we
have to do with work which has per-
mitted the performer to experience
joy, freedom and an exulting sense of
strength, while it was being accom-
plished. And, contrarily, when we
find the worker intelligent and joyous
we may expect superior results, for
then the psychological conditions are
right.

Pleasure in work produces a sym-
pathetic, teachable mental attitude
toward the task. It makes the atten-
tion involuntary and eases the strain
of attending. It stops the nervous
leaks of worry. One of the secrets
of lasting well is to avoid getting
stale and tired and in a mental rut.
Pleasure gives a sense of freedom
that is a rest, as a wide road rests
the driver. To know a thing thor-
oughly and attain mastery in it
one must be drawn back to it repeat-
edly by its attractions, and must find
one's powers evoked and trained by
its inspiration.

ROMANCE FOUND IN WILLS

Bequests and Instructions Reveal the
Humor and Pathos of the Or-
dinary Lives.

The romance of wills, to my mind,
consists primarily of the revelation
therein of the humor and pathos of
ordinary lives, writes E. Vine Hall
of London, in Case and Comment.
Thus it is that, when here in London,
at Somerset house, I turn over the
multitudinous leaves of old volumes,
covering centuries of dispositions con-
ceived by common men and women
of other days, in the hour or in the
view of death, I feel that I am en-
gaged in a truly romantic quest. I
handled recently a romantic original
here, the last diary of Horatio Nelson,
written in a little notebook inter-
leaved with thin blotting paper. It
contains Nelson's last prayer, fol-
lowed by a document which was
proved as codicil to his will, and be-
gins: "October 21, 1805. Then in
the sight of the combined fleets of
France and Spain, distant about ten
miles." The conclusion, which re-
calls in some ways Captain Scott's
last message from the antarctic
snows is, it will be remembered, as
follows: "I leave Emma Lady Ham-
ilton therefore a legacy to my king
and country, that they will give her
an ample provision to maintain her
rank in life. I also leave to the
beneficence of my country my adopt-
ed daughter, Horatia Nelson Thom-
son, and I desire she will use in fu-
ture the name of Nelson only. These
are the only favors I ask of my king
and country, at this moment when I
am going to fight their battle. May
God bless my king and my country,
and all those I hold dear! My rela-
tions, it is needless to mention; they
will of course be amply provided for."

Word Labels.

We are all in a greater or less de-
gree the slaves of words, judging of
an action by the name we give it or
hear given it by others. This tyranny
of words was well illustrated by a re-
mark made by a woman of at least
average intellect: "That sounds very
reasonable. But are you not now
preaching free trade? Because if you
are, I entirely disagree with what you
say." She had been willing to swal-
low the doctrine, but the label stuck
in her throat. The hours we spend in
uncongenial society, in pursuits which
cannot by any possibility be of use to
anyone, in doing things we take no
interest in, in reading books which
need never have been written, in writ-
ing articles which need never be read
—all these added together would
amount to years in the course of a life-
time, and yet we submit, smilingly, un-
complainingly, because we find all
these things labeled "Pleasure" and
we "ought to take a little relaxation."
—L. B. Wheeler.

Captured Wounded Eagle.

A wounded eagle chased a farmer
of Dover, N. J., who was out taking
a walk the other evening. He heard a
queer sort of fluttering behind him,
but thought it was some new-fangled
kind of automobile. The fluttering
was followed by a screech more rauen-
ous than that of the latest auto horn.
The farmer jumped and turned to
"cuss out" the speeder. He looked
around and saw a bald eagle. He ran,
the eagle following and gaining fast
until it finally fell helpless to the
ground. It had received a gunshot
wound. The farmer took the bird
home. It measured 64 inches between
the tips of its wings.

BURGLARY AT HERNDON

Thief Secures Considerable Quantity of Merchandise

A burglar effected an entrance to the storehouse of Mr. Dulin Weaver at Herndon a few nights ago and carried off considerable merchandise, including cigars, tobacco, pocket knives, etc. Mr. Weaver also lost an overcoat and a pistol. He has a clue and the chances seem good for the burglar to be brought to justice.

A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for testimonials from this and other states. Dr. E. W. Hall, 2926 Olive Street, St. Louis, Mo. Send by druggists. Advertisement.

C. M. KEATTS, Treasurer.	
Lafayette Graded School, Lafayette, Ky.	

VICK'S Croup and SALVE FOR ALL COLD TROUBLES

Dined By Superintendent.

The Christian County Board of Education met in regular session in the office of the County Superintendent, L. E. Foster, Wednesday, the day being changed from Tuesday to Wednesday so that the board might dine with Mr. and Mrs. Foster at their residence on Central Ave.

Those present were: W. F. Lacy, J. T. Simpson, Joe Johnson, L. M. Hill, Robt. McGaughey, G. W. Buchanan, Edgar Harned and Miss Dovie Winfree, Secretary of the Board. Mr. E. F. Griffin was absent on account of the illness of his son.

Supt. Foster submitted to the board a budget or schedule of expenses for the year 1915, which was heartily endorsed by the board.

NEW TREATMENT FOR COLD TROUBLES

Is plenty of fresh air in the bed-room and a good application of VICK'S Croup and SALVE over the throat and chest, covered with a warm flannel cloth; soothing anti-septic vapors are released by the body warmth and inhaled directly to the affected parts. No need of disturbing the stomach with medicines. The worst colds relieved in one night; croup in fifteen minutes. At all druggists, 25c, 50c and \$1.00. Sample on request. Vick's Chemical Co., Greensboro, N. C.

FELL UNDER TRAIN

And Victim May Lose a Limb as the Result.

Will Cox, col., had one of his feet injured by a train Thursday morning about 4 o'clock, and, as a result, may lose a limb. Cox, according to his own statement, it is said, was en route home from Madisonville and was riding the bumpers of a freight train, when he fell. The car cut the skin from the limb from a point several inches above the ankle down, the limb and foot being peeled. The accident happened at a point near Latham, just north of the city, and the injured negro was brought to his home on Third street, where he received medical attention. While no bones were broken, the injury is considered a serious one and Cox's foot may have to be amputated.

Corn Stalk Paper.

The first paper mill to chew up corn stalks and spread them out into pearly white sheets of paper will soon be built at Bloomington Ill. Uncle Sam through his representative George A. Stewart, of the Bureau of Plant Industry, has found out that corn stalks can be bought in unlimited quantities at \$5.00 a ton, and the farmers are only too eager to supply them. The government has been experimenting with cornstalk paper, and on a recent visit here, Mr. Stuart displayed some excellent book and magazine paper that Uncle Sam had made from the stalks.

The proposition of turning into paper the millions of tons of corn stalks that are annually burned in the corn belt is one of great interest to farmers, and it is predicted that the wood-pulp industry will soon have a serious competitor in the cornstalk paper industry.

Hong Kong has a population in excess of 500,000. The island contains twenty-seven square miles.

BOARD OF TRADE

Officers Elected For 1915, At Election Wednesday.

R. E. Cooper, President.
J. P. Thomas, Vice President.
H. H. Abernathy, Inspector.
H. H. Abernathy, Secretary.

These are the same officers who have held their respective positions for several years.

The following committees were

also named:

Reclamations—W. M. Hancock and M. H. Tandy.
Appeals—T. B. Fairleigh, W. A. Wilson, W. D. Cooper and J. T. Thomas.
Sales—J. T. Thomas, W. M. Hancock, M. H. Tandy, W. D. Cooper and L. B. Cornette.

Mose Comes Back.

The Lewisburg Leader says Moses Ayers, who disappeared from his home in Logan county a year ago, has returned home. Foul play was suspected for a while.

SECRETARY

Of A. of M., Presented With Silver Cup and Saucer.

At a recent meeting of the Academy of Medicine, Dr. D. H. Erkiletian was presented with a handsome silver cup and saucer as a token of appreciation of his services in the organization. Dr. Erkiletian has been secretary of the Academy of Medicine for a year or more and was the promoter of the organization here.
